I checked on the ASPECT deployments since Oct. 2018. We have only done the current ITC response and the Crosby, KMCO fire (because we were already there).

Hi Tim:

Hope you're hanging in there, I know there's a lot going on. Got a couple asks from above, and a couple other items FYI:

1. Peter Oh asked about a weekly ASPECT status report that Mark used to provide the EOC folks. Know anything about it?
2. Mike Nalipinski asked for the number of ASPECT deployments since 1 Oct 2018; this is for Reggie's accomplishments; he'd like this today please;
3. I approved your OT requests for the last couple days;
4. I didn't see a voucher to approve for the Burlington VT trip Alice was helping you with – did you get a notice someone else approved it?
5. Gina suggested you plan to take time off after the 27th, before you start with the region. We can probably discuss a couple days off for you before you go to the Region, but I want to make sure you get some time with Greg and Ahmed (hopefully next week, right?) to do a brain dump and COR discussion about ASPECT.

Thanks for all you're doing, sorry its such a rush at the end. Hopefully the R7 pace will be more measured.

Let me know what I can do for ya.

Scott
